

## 62V Series Channel Balance (Rusco)

OBsolete BALANCE  
AND RELATED  
COMPONENTS  
ARE SHOWN FOR  
REFERENCE ONLY

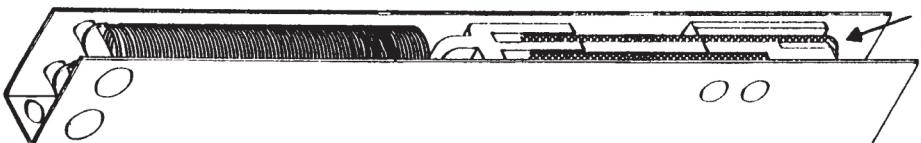

5 to 1 Overhead

Old Style

Balance is strung with 3/64" Dia. wire cable.

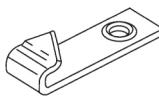

New Style

New style is strung with .072 Dacron Cord.

62V-500

Balance Clip

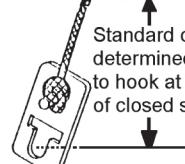

60-518

Supplied with our 60-518 clip unless otherwise specified.

If ordering  
**900-21263**  
add -10

If ordering  
**900-17773**  
add -6

13/16" Channel Height

9/16" Channel Width

Standard cord length is determined from balance to hook at bottom of closed sash.

### Ordering Information

- 1) Measure channel length.
- 2) Identify number stamped on balance.
- 3) Customer must determine how much cord hangs down from the balance when the window is closed. If more cord than the standard lengths shown is required, specify number of extra inches required when ordering by adding a plus sign (+) followed by number of extra inches needed.
- 4) Determine the clip to be attached to balance. If ordering with our 900-17773 attached, add -6 after our part number.

(e.g. If ordering a 153-D balance with our 900-17773 clip attached and 40" of cord is required, the part number would be 62-153D+10-6.)

### General Information

- 1) Balances are supplied with either one or two springs. If the number stamped on your balance is followed by the letter "D" it denotes a double spring.

Length of Metal Channel	Number Stamped on Balance	Our Part Number		Weight Range (2 Balances)
13-1/4"	112	62V-112	Standard extended cord length from balance 20"	4 to 10 lbs.
