Grille alignment with other Andersen® products. All vertical arch window grille members were designed to be equally spaced. Vertical alignment may not coincide when units are transom joined. All horizontal grille members were designed to line up with corresponding casement sizes. Special order arch window grilles are available to achieve proper alignment.

Sizes on this page are shown with the Renaissance grille pattern.

Renaissance not available with Finelight® grilles.

Specified equal light and custom patterns are also available. Not all grille patterns are available in all configurations.
