A-Series Awning and Transom Windows (2008 to Present)

Awning and Transom Windows

Unit Sizes

Standard and Custom Window Sizes

Note:

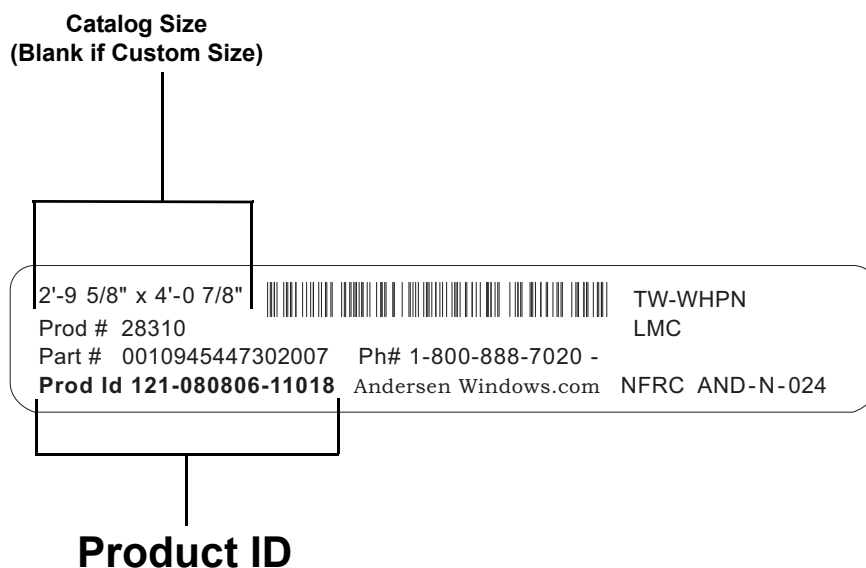

A-Series Awning, Venting Transom, and Stationary Transom Windows are available in standard sizes (see standard size charts, [page 10](#)). Replacement parts for some standard windows can be ordered using the numbers listed in this catalog. Many replacement parts for standard windows are made to order. These items are ordered using the product identification found on the product label and a description of the part needed (see label, [page 9](#)).

A-Series Awning, Venting Transom, and Stationary Transom Windows are also available in custom sizes in 1/8" increments between the smallest and the largest standard sizes. Most replacement parts for custom-sized windows are made to order and can be ordered with the product identification found on the product label and a description of the part needed (see label, [page 9](#)).

A-Series Product Label

Note:

Every A-Series Awning, Venting Transom, and Stationary Transom Window has a permanent label containing a unique identification number. The label on A-Series Awning, Venting Transom, and Stationary Transom Windows is located beneath the sill stop. The product ID number may be 5 to 9 digits long, depending upon the age of the unit. On replacement parts the product ID is the set of numbers that appears before the first hyphen. When ordering replacement parts, providing the product ID ensures that replacement parts match the specifications.

Sash

Sash Size Table

Note:

Overall Sash is measured outside edge to outside edge of frame.

Unobstructed Glass is dimension from outside edge to outside edge of visible glass only.
